## Important additional information

### Appointments

There are many reasons why someone may not be able to attend their appointment but its important to remember to call and tell them if you need to cancel or re-arrange your appointment. The contact number can be found on page one of this document or on your appointment letter.

Failure to attend the appointment without prior notice may result in your discharge from their care, ultimately ending your treatment. If you require their support again, you may need to be re-referred by your GP and go onto a waiting list for support.
