

Public Trust Board 26th July 2022

Clinical Plan

Purpose of the report

- To present the final version of the Clinical Plan 2022 to 2023, appended to this report

Analysis of the issue

- LPT undertook to refresh the previous version of the Clinical Strategy 2014 to 2019, extended to 2021.
- The current version was named as the Clinical Plan; describing the fundamental philosophy and approach to modelling, implementing and improving delivery of clinical services in line with the Step Up to Great Strategy
- The fundamental approach is based on Value Based Health Care; underlining high quality outcomes at sustainable costs. This is in line with the LLR ICS philosophy of a population health focussed strategy.
- The Plan was co-produced following campaigns and conversations with service user groups, clinical leadership, Directorate management groups and staff in LPT.
- The Plan has been discussed and approved at SEB, May 22 and presented and discussed at the Trust Board Development Session in June 2022.

Proposal

- That the Trust Board approve the Clinical Plan for implementation
- That the support, oversight and implementation is governed through the appropriate governance fora; and progress reports presented at Operational Executive Board and also at Trust Board as and when indicated.
