Urgent Mental Health Support

If you, or someone you care about, need urgent advice or support for your mental health, support is available over the phone. Call NHS 111, selecting option 2 for mental health. This number is open 24 hours a day, seven days a week free of charge and in confidence.

Please note, this service can be busy at certain times and you may have to wait for your call to be answered.

NHS 111, option 2 for mental health

In an emergency

If you are concerned about an immediate risk of harm – either to yourself or someone else – phone 999.

You can also call **NHS 111** for physical, medical and mental health issues. www.signvideo.co.uk/nhs111/

How you can be supported as a carer

A carer is anyone who looks after a partner, family member, child or friend who needs help because of their illness, frailty, disability, mental health or addiction and cannot cope without your support. A carer may be an adult or a child. The care they give is unpaid (some carers will receive carers allowance).

We understand that trying to provide support and care for a loved one can be challenging. This could impact upon your own health and wellbeing.

The information in this leaflet is intended to provide awareness of services that are available within the community that could help carers feel supported and empowered.

New to caring?

If you're new to caring, these websites are a great place to start. They are packed with useful information - whether you live in the city, county or Rutland. You may also be entitled to extra support, including financial help which can be assessed through your local authority.

Understanding mental health

If your loved one has been diagnosed with a mental health condition, you may want to find out more about what symptoms they might struggle with and how it could affect them.

You can always ask the care team involved with your loved one for more information.

You may also want to understand and find support for your own mental health. This booklet has information about a wide range of support available for mental health.

If you are not sure where to start, are worried about your mental health (but not in crisis), your first point of contact would be to ring 111 or speak to your GP.

Visit the NHS website to learn more about mental health conditions:

www.nhs.uk/mental-health/conditions

Better Health - Every Mind Matters

Better Health - Every Mind Matters helps empower people to look after their mental wellbeing. Their website features lots of NHS approved tips and advice to help you be kind to your mind.

At its heart is the free NHS-approved Mind Plan, available on the website. By answering five short questions people get a personalised mental health action plan, providing practical tips to help them deal with stress and anxiety, boost their mood, sleep better and feel more in control.

Helpful tips for carers

1. **Register as a carer** with the GP of the person you care for (and your GP if different) - it can be easier if you're registered with the same GP
2. Ask for a **carers assessment** from the Local Authority
3. If the person you care for has care and support needs, consider asking for a **care and support needs assessment** from the Local Authority for them
4. **Check your benefits** through a website such as Carers UK: www.carersuk.org
5. Get a **carers passport** (find out more on page 7)
6. **If you work**, talk to your employer about your caring responsibilities. They may be able to help you balance your caring role with your employment duties
7. **Meet and talk to other carers at local carers groups** and find out events happening with the community and connect with others
8. Caring can have a big impact on a carer's own mental health. It's important to ask for support with **looking after your mental health and wellbeing** if you need it. This could be from family, friends or even your local carers support group (find out more on page 11) or mental health services via GP referral
9. If you **need a break** from caring, talk to your local carer support service who will be able to point you in the right direction

Carers Passport

The Carers Passport is available and recognised throughout Leicester, Leicestershire and Rutland. The Passport enables access to services and support. It's available as a wallet-sized card, downloadable onto your smartphone or with a lanyard.

Physical Health and Wellbeing

Looking after your physical health as a carer is just as important as your mental health and wellbeing. It is important for you and also helps the person you care for.

Eating well

Shopping, meal planning and preparation are important for good nutrition and a healthy daily routine. For more information about healthy eating, visit:

www.nhs.uk/live-well/eat-well

Sleeping well

When you're caring for someone you may need to see to their needs during the night making it harder to get enough sleep. Sleep problems can affect your energy and concentration levels making it difficult to carry out your caring role. Speak to your GP if you have trouble sleeping or visit the NHS website for tips on better sleep:

www.nhs.uk/every-mind-matters/mental-health-issues/sleep/

Physical Health and Wellbeing

Looking after your physical health as a carer is just as important as your mental health and wellbeing. It is important for you and also helps the person you care for.

Moving well

Research has shown that regular physical activity can improve mood, self-esteem and quality of sleep. Having good physical fitness, strength and flexibility reduces the risk of physical injury and fatigue from the demands of caring. LFS Active Together offer physical health groups and information for carers:

www.active-together.org/letsgetmoving

Staying well in Winter

You are entitled to a free flu jab every year. For more information, visit:
